Subject: Microsoft Suit

To Whom It May Concern:

This American tax payer is sick and tired of the Federal government taking my hard-earned money and wasting it on frivolous and STUPID lawsuits against companies which make America work and employ thousands of people. NOBODY was complaining about Microsoft being a monopoly until their COMPETITORS did it! All it's done is darn near wreck the economy--all you have to do is look at the stock market since Bill Clinton, Janet Reno and their confederates started this asinine stuff in cooperation with Big Law--people we should be more worried about than Big Tobacco, Big Business, Big Oil! Knock it off! Send me my money back!

Thanking you in advance for coming to your collective senses,

Bill Edwards
Fed-up Taxpayer
